Equalizer Is The World Leader Of Inventing And Developing New Ideas For The Auto Glass Industry.

Equalizer has invented, developed or brought to market the majority of new products that have been introduced into the Auto Glass industry since 1987. Our goal is to be the leading source of auto glass removal and replacement products in the world.

Our products are on the cutting edge of auto glass removal and replacement technology, so our staff travels extensively throughout the world, promoting Equalizer brand tools and products. Each year they teach and participate in many training seminars and trade shows. Many of our staff are regular speakers at dozens of regional, national and international association meetings and trade shows.

Equalizer currently provides over 1200 auto glass removal and replacement products on a worldwide basis from its facility in Round Rock, Texas in the United States of America.

Have you invented or developed an original tool or idea that you feel others may benefit from? Equalizer Industries, Inc., may be interested in evaluating your idea/invention. Your invention could be produced and sold by Equalizer Industries, Inc., under an attractive award or royalty agreement that will bring you income for years. If you have such an invention and are interested, please follow these two steps:

1. Visit our website www.equalizer.com, write or call Equalizer Industries, Inc., at 1-800-334-1334 and request an invention disclosure agreement.
2. Return the signed agreement to Equalizer Industries, Inc., along with your invention. Equalizer Industries, Inc., will promptly evaluate your invention and notify you if an award or royalty is possible.

Our Address:

Equalizer Industries, Inc.
2611 Oakmont Drive
Round Rock, TX 78665
